

Coalition to Prevent Westchester Airport Expansion

www.coalition-to-prevent-westchester-airport-expansion.org

FOR A VIBRANT YET LIMITED AND SUSTAINABLE COUNTY AIRPORT

Westchester Airport Facts

3rd busiest airport in New York State and among the busiest airports in the USA for general aviation.

<20% Commercial airlines. Increasing private/corporate flights, esp. with larger jets.

702 Acres. Larger than Laganardia and with a longer runway than Chicago Midway.

0.1 mile from the Kensico Reservoir, drinking water source for millions of people in Westchester and NYC.

County owned, and so accountable to the people.

An Organization Worth Supporting

The coalition exists to protect the Kensico Reservoir and Blind Brook watersheds, residents' quality of life, and the welfare of Westchester and the surrounding region.

We are individuals and families, community and environmental groups, and the local businesses that serve us -- uniting behind advocacy for airport policies that prioritize public health & safety, the environment, and the quality of life our taxes should bring.

Yes, There are Reasons to Worry:

- Water pollution — PFAS and other contaminants detected near reservoir
- Noise/Air Pollution — surging complaint numbers
- Security concerns after recent JetSmarter incident*
- Hangar Expansion — Million Air pressing County for 2nd new hangar
- Master Plan revision process about to launch
- And more...

Let's join together and make ourselves heard over the noise. We appreciate the airport's conveniences, but we can minimize its harmful health and environmental impacts, and make it a much better neighbor.

30 Seconds to Become A Supporter

- Please go to our website to the "Take Action" tab and add your name
- Thank you for considering other ways you can chip in and get involved
